## Introduction

# **FreelanceHub: Revolutionising the Developer Freelancer Marketplace**

## **WHAT?**

**A web based marketplace which connects project owners with freelance developers**

Enables project owners to post job listings, which developers can review and undertake.

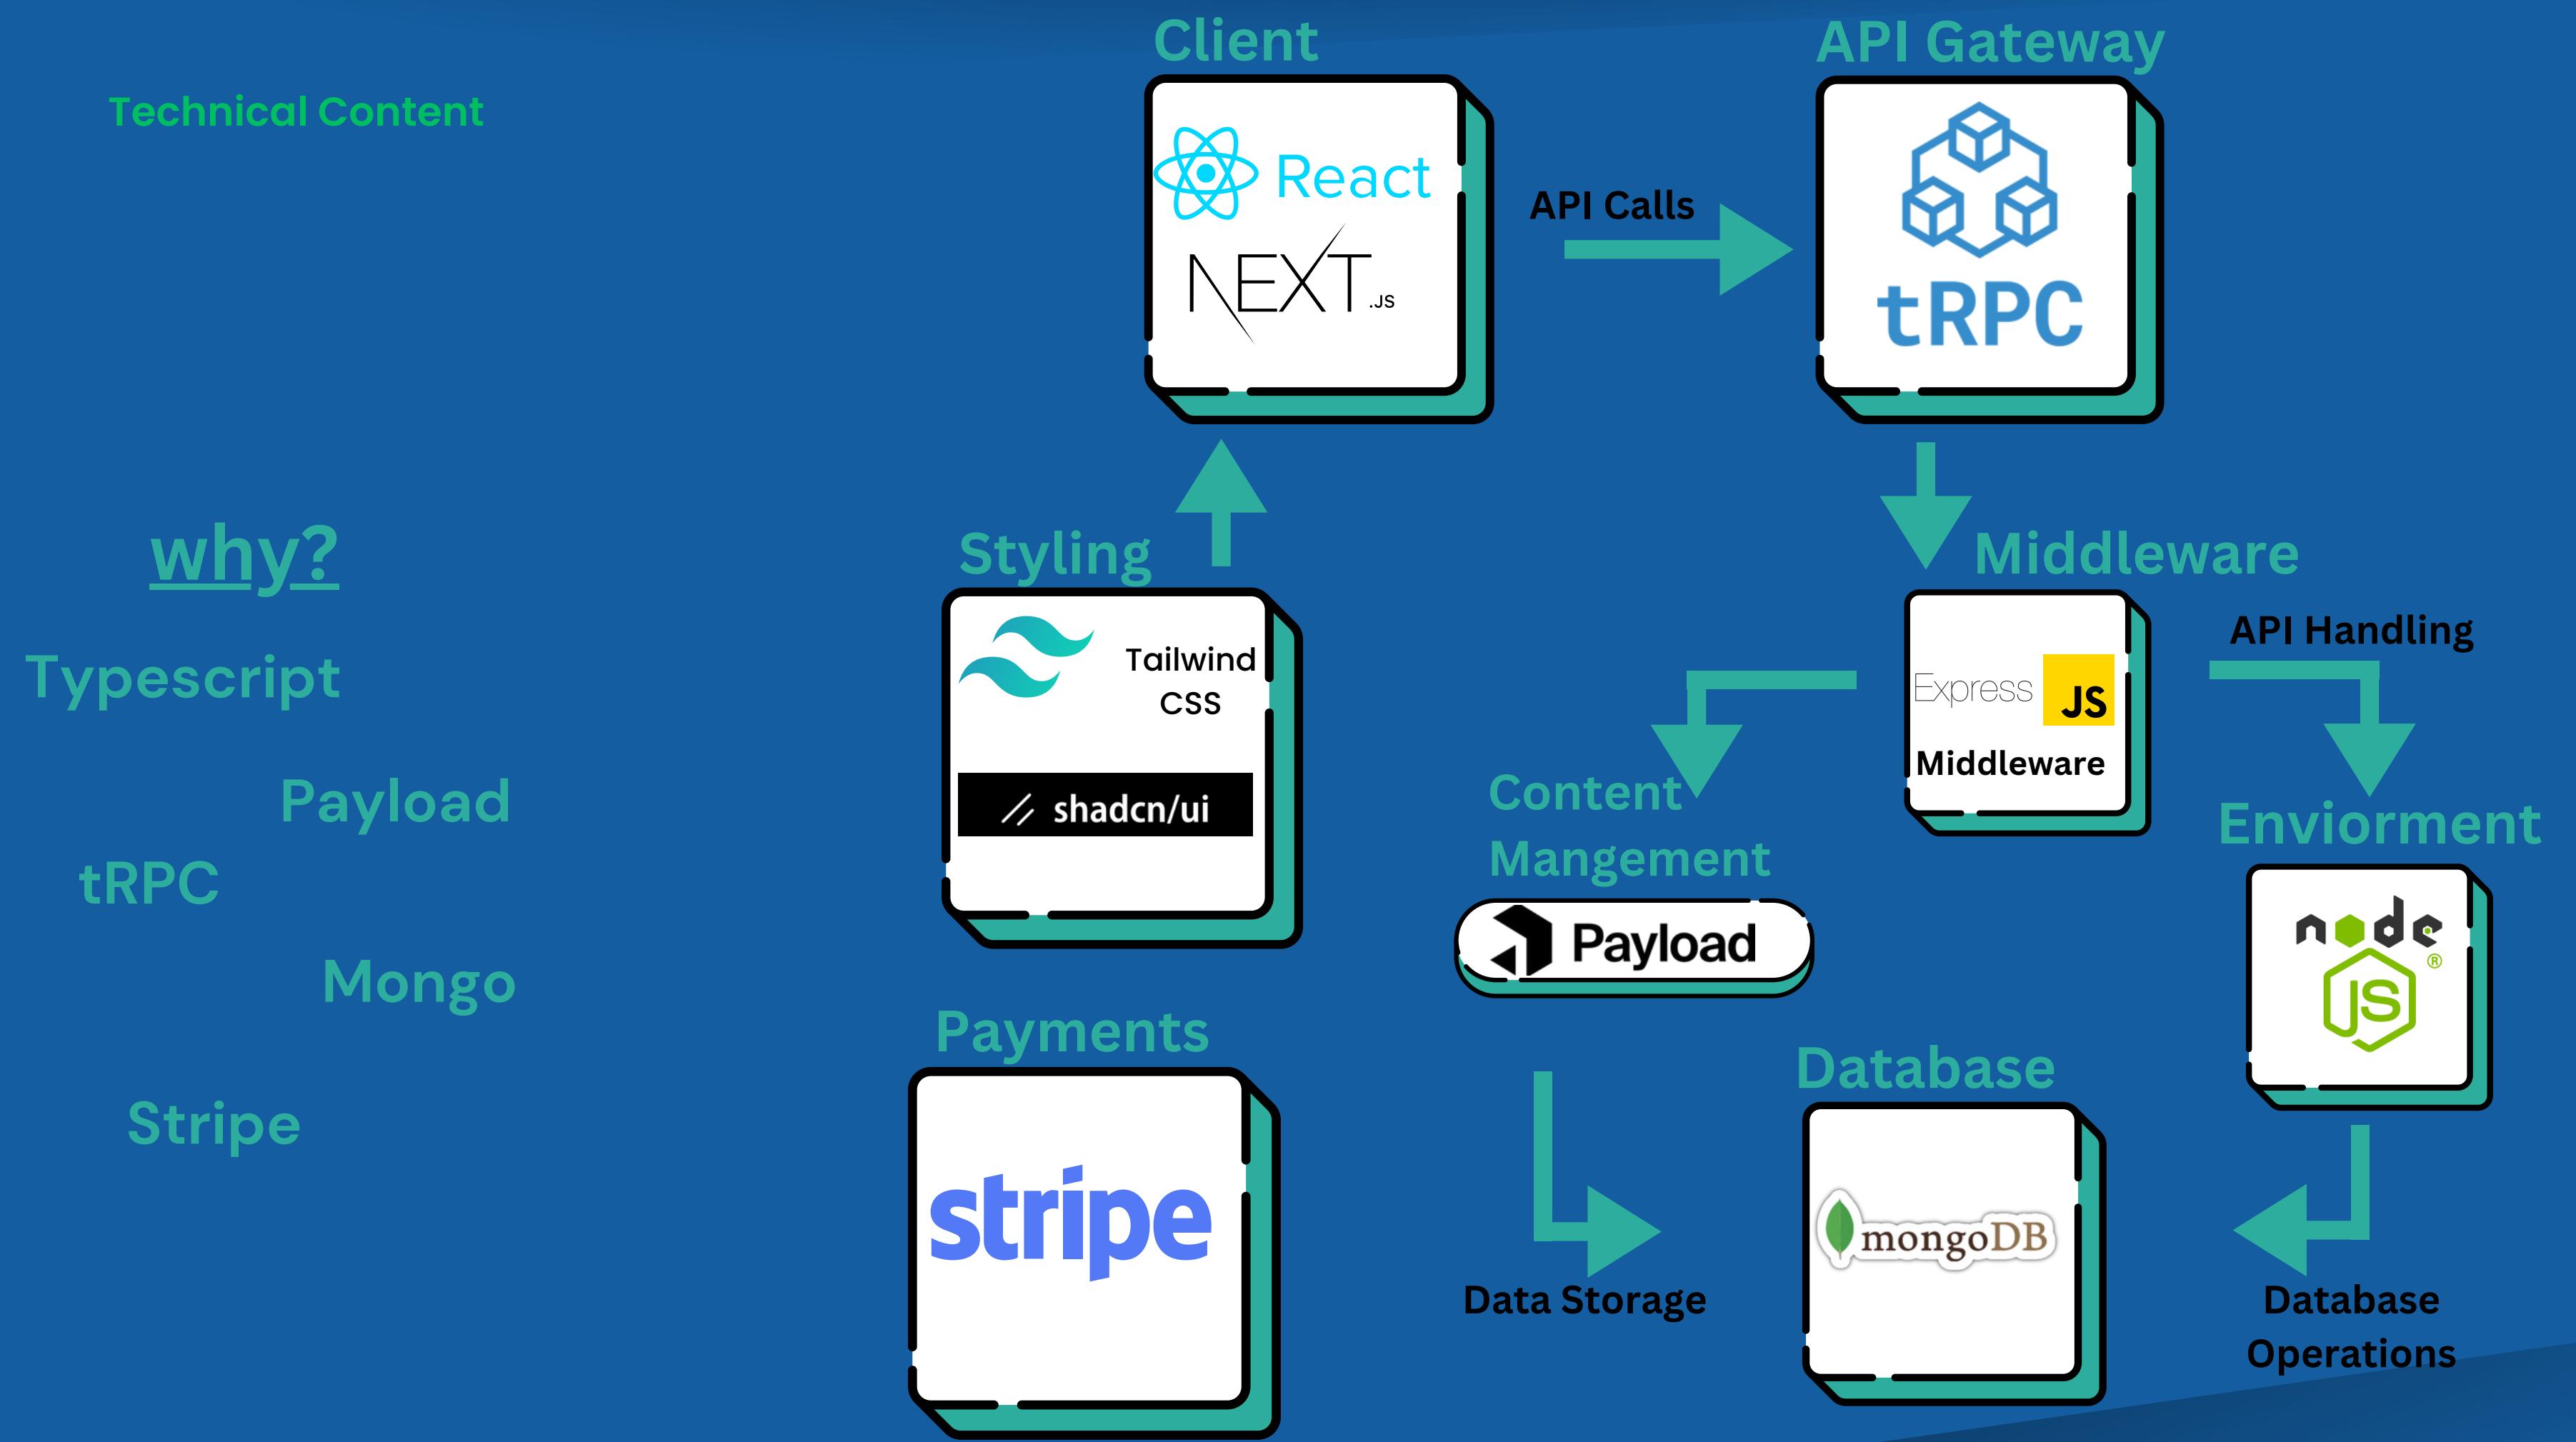

Empowering individuals to achieve financial success and independence through our innovative solutions, fostering opportunities for economic growth and prosperity

## **WHY?**

**FreelanceHub offers a solution to a crucial issue in the freelance engineering industry by facilitating the application and monetisation of engineering skills while also providing benefits to project owners and businesses.**

People are already doing it,  
why would they not profit
